

ROCABELLA MYKONOS

ART & WINE ON THE MOVE

Château Nico Lazaridi for the first time in Mykonos

For us, wine is not just a product – it is art. It is inspiration, creation, senses and culture in liquid form. We are delighted to announce that the exhibition ART & WINE ON THE MOVE by the renowned Château Nico Lazaridi is being presented for the first time in Mykonos, hosted in our space.

This is a unique traveling exhibition that began in 2019, on the occasion of the 30th anniversary of the first Château bottling. Since then, it has been touring across Greece, offering the public the opportunity to admire up close the original artworks that decorate the bottles of the winery's emblematic wines — artworks created exclusively for its labels and, until now, presented only at the winery in Drama.

The exhibition will last for seven days and is open to both hotel guests and the general public, offering everyone the chance to discover the art hidden behind every wine bottle.

As part of the event, special Food & Wine pairing evenings will take place, where wine is combined with exquisite flavors, highlighting the connection between gastronomy and aesthetics. A unique moment of the exhibition will be the presence of Mr. Lazaridi himself, who will be with us on selected days to share personal stories and secrets behind each creation.
